Detailed Description

VOC Gas Barrier to be used shall be Protech VOC Flex supplied by The A Proctor Group, Blairgowrie. Protech VOC Flex is a high performance 6 layer flexible proprietary reinforced VOC gas barrier and is suitable for use on brownfield sites that require protection from dangerous contaminants such as hydrocarbons. It is also suitable as a high performance damp proof membrane.

Product

Product performance specification as follows:

Thickness

0.55mm

Roll Size

 $2m \times 50m$

Material

6 layer reinforce PE Film laminate

Colour

Orange

Accessories

Protech VOC Flex Starter Band

Protech VOC Tophats

Protech SAGM (Self Adhesive Gas Membrane)

Protech GM Flashing Strip Protech VOC Corner Units

Protech GM Primer

Protech GM 3mm Protection Board

Protech GM Protection Fleece

Protech LAGM (Liquid Applied Gas Membrane)

Certification

Minimum required: not applicable

Technical Properties

- Mass per Unit area: to be no less than 564 g/m² when tested to DIN EN ISO 536
- Tensile Strength: to be no less than MD 700N/50mm; CD 640N/50mm when tested to EN 12311-2
- Elongation: to be no less than MD 30%; CD 25% when tested to EN12311-1
- Nail Tear Resistance: to be no less than MD 500N; CD 540N when tested to EN 12311-1

PROTECH VOC FLEX

• The membrane should have a pass when tested against the following contaminates

Methane Permeability

Diesel Permeability

Petrol Permeability

Xylene Permeability

Toulene Permeability

Vinyl Chloride

Ethyl Benzene

Trichlorethene

Xylene (O, M, P)

Naphthalene

Benzene

Toluene

Hexane

Tetrachlorethene

Bromoform

Carbon Tetrachloride

Chloroform

Ethylene Dichloride

Methyl Teriary Butyl Ether

Trichloroethylene (TCE)

Perchloroethylene (PCE)

Protech VOC Flex complies with CIRIA C748 and BS8485:2015. It is a high performance 6 layer flexible proprietary reinforced VOC gas barrier and is suitable for use on brownfield sites that require protection from dangerous contaminants such as hydrocarbons. The Protech VOC Flex has been developed to ease installation on site due to the flexibility of the membrane. It is also suitable as a high performance damp proof membrane.

Benefits

- Exceptional chemical resistance
- Additional damp proofing protection
- Flexible membrane to ease installation on site
- Robust & durable multi-layer membrane
- High resistance to puncturing
